

BAMBERG
GRADUATE SCHOOL
OF SOCIAL SCIENCES

BAGSS SEMESTER COLLOQUIUM

Wednesday, 09 April 2025; 5.00 p.m.

Interpretation of Statistical Analyses Using Quantities-of-Interest

Professor Thomas Gschwend, PhD
University of Mannheim

Thomas Gschwend is Professor for Political Science, Quantitative Methods in the Social Sciences at the School of Social Sciences and a project director at the *Mannheimer Zentrum für Europäische Sozialforschung*. His substantive research focuses on electoral behavior, public opinion and comparative politics.

This lecture makes the case that social scientists should take their model results more seriously by using them to strengthen the substantive implications of their research. Raw regression coefficients, particularly in non-linear models, offer only limited substantive insights at best.

Place

Feldkirchenstraße 21,
Room FG1/00.08
